"Cole-Parmer MHM-100-250 Uncontrolled Heating Mantle, 250 mL Capacity; 230 VAC"

Cole-Parmer MHM-100-250 Uncontrolled Heating Mantle, 250 mL Capacity; 230 VAC

Cole-Parmer - Item # EW-36103-05

No Reviews [Write the First Review](#)

Flexible heating element for efficient heat transfer and fast boiling times

- Requires a power controller to operate
- Exterior remains cool to the touch
- Accepts round-bottom flasks
- Maximum element temperature of 842°F (450°C)
- 100 mL flask capacity
- 230 VAC operation
- 3 year warranty
- Previous part number CMU0250/E

PRODUCT OPTIONS

Specifications & Description

Funnel Dia (in)	3.39
Max Flask Size (mL)	250
Material	Aluminum
Max temperature (° F)	842
Max temperature (° C)	450
Power (VAC)	230
Power (Hz)	50/60
Power (watts)	200
Height (in)	5.91
Outside Diameter (OD) (in)	6.89
Description	Uncontrolled Heating Mantle, 250 mL Capacity; 230 VAC
Warranty	3 Years

INCLUDES

Power cords with plug (UK and EU).

KEY FEATURES

- Requires a power controller to operate
- Exterior remains cool to the touch
- Accepts round-bottom flasks
- Maximum element temperature of 842°F (450°C)
- 100 mL flask capacity
- 230 VAC operation
- 3 year warranty
- Previous part number CMU0250/E

MORE ABOUT THIS ITEM

These simple-to-use, low-cost heating mantles quickly heat up to 842°F (450°C). The replaceable coiled heating element suspended within a thermal insulating cartridge provides maximum heat transfer and support.

Powder-coated aluminum outer casing stays cool and is easy to clean. A stainless steel grounded earth screen and double fuses provided added safety. All heating mantles feature a support bracket for holding a support rod.

Note: A controller is required to operate the heating mantle—order separately.

Please Note: Effective July 2022, the Electrothermal Uncontrolled Heating Mantle Model number CMU0250/E has now been rebranded Cole-Parmer under Model number of MHM-100-250. All the same great features and specifications, just with a new and improved look.
