MORE ABOUT THIS ITEM

This series of toploading balances features an ALIBI-compliant onboard memory. Ideally suited to regulated industries requiring data integrity and auditing capabilities, the ALIBI function prevents data modification and deletion. Printing and streaming of GLP-compliant weight reports are also available for industries subject to audit. Included data collection software allows you to export logged data for further analysis. USB A and B ports support device and PC connection, and RS-232 provides printer or PC connection. Balances may run on mains power, or use the built-in rechargeable battery where portability is necessary.
