Specifications & Description

Max Flask Size (mL)	500
Material	Polypropylene(PP)
Max temperature (° F)	842
Max temperature (° C)	450
Power (VAC)	230
Power (Hz)	50/60
Power (watts)	200
Height (in)	5.6875
Width (in)	9.375
Depth (in)	12.25
Description	Heating Mantle, 500 mL Capacity; 230 VAC
Warranty	3 Years

INCLUDES

Power cord with UK plug.

KEY FEATURES

- Chemical resistant polypropylene housing is "safe to the touch"
- 500 mL flask capacity
- Features a single support rod clamp that accepts a 1/2" rod
- 230 VAC operation
- 3 year warranty
- Previous part number EM0500/CE

MORE ABOUT THIS ITEM

Quickly and safely heat round-bottom flasks to 450°C (842°F). These simple-to-use heating mantles feature a built-in power controller with dial markings from 1 to 10 for repeatability. An amber-colored "heater on" light and a clear-colored "power on" light indicate when the heating mantle is in use. The replaceable coiled heating element suspended within a thermal insulating cartridge provides maximum heat transfer and support.

Unique ventilation slots and ceramic fiber insulation keep the chemical-resistant polypropylene exterior cool even while in use. A safety earth (ground) screen and double fuses provide added safety.

Please Note: Effective June 2022, the Electrothermal Electromantle Model number EM0500/CE has now been rebranded Cole-Parmer under Model number HM-200-500. All the same great features and specifications, just with a new and improved look.
