- 3 year warranty
- Previous part number CD150B

## MORE ABOUT THIS ITEM

Ideal for day-to-day use by scientific professionals and students, the Cole-Parmer digital hot let you accurately set temperature with the LED display. A hot warning light protects you from accidental burns; it flashes when surface temperature is above 50 °C and remains on even if the unit is turned off or unplugged.

The simple body design allows spillages to be easily deflected from the user. Front control panel resists spills and the glass is chemically toughened for extra resilience. In addition, units feature BioCote® antimicrobial protection which reduces the presence of odor and stain causing microbes such as bacteria, mold, and fungi on the product surface by up to 99.99%.

The digital interface indicates the set and actual temperature on the 7-segment digital display. To achieve accurate sample

temperature control up to 200 °C (392 °F), a digital temperature controller (sold separately) can be connected to the rear of the unit.

The digital interface model features a digital temperature setting. The set and actual temperature is shown on the seven-segment digital display. To achieve accurate sample temperature control up to 200°C, a digital temperature controller (sold separately) can be connected to the rear of the unit.
