Specifications & Description

Max Flask Size (mL)	500
Material	Aluminum
Max Stirrer Speed (rpm)	2000
Max temperature (° F)	842
Max temperature (° C)	450
Power (VAC)	230
Power (Hz)	50
Power (watts)	280
Height (in)	6.75
Width (in)	8.625
Depth (in)	8.625
Description	Stirring/Heating Mantle, 500 mL; 230 VAC
Warranty	3 Years

INCLUDES

Power cords with plug (UK and EU).

KEY FEATURES

- Flexible coiled heating element wraps the heater around round-bottom flask to optimize heat transfer
- “Cool to the touch” exterior provides safe handling
- 500 mL flask capacity
- 230 VAC operation
- 3 year warranty
- Previous part number CMUA0500/CE

MORE ABOUT THIS ITEM

These stirring/heating mantles combine the functionality of a heating mantle with a magnetic stirrer providing even heating and mixing. Element temperatures can reach up to 842°F (450°C) yet the exterior remains cool to the touch. For maximum safety, the flask does not come in direct contact with the heating element. Built-in energy regulator and safety earth (ground) screen offer added safety protection.

Reach stirring speeds up to 2000 rpm. Simply use the auto-recapture switch to reactivate stirring if stirring is interrupted and stirring motion is lost. Two colored lights by each control dial indicate "power on" and "heat on." Powder-coated aluminum housing makes it easy to clean. All heating mantles feature a support bracket for holding a support rod.

Please Note: Effective August 2022, the Electrothermal Stirring/Heating Mantle Model number CMUA0500/CE has now been rebranded Cole-Parmer under Model number of MMSHM-200-500. All the same great features and specifications, just with a new and improved look.
