MORE ABOUT THIS ITEM

LB-200 toploading balances are designed with an array of features and functions that accommodate most lab applications. This range offers improved performance for faster, more accurate readings. With stylish, modern backlighting, the impressive display is easily visible in any lighting condition. The LCD features large, readily discernible 24 mm digits. Multilingual text and display capability make LB-200 well-suited for users in various regions. For simple operation, navigation buttons are color-coded, helping users perform functions with minimal training. LB-200 provides USB and RS-232 interfaces to facilitate data collection and transmission to computers or printers. ABS plastic construction and the rugged grade 304 stainless steel pan are easy to clean and can withstand demanding lab use.

Toploading balances offer a wider range of weighing capacity, from 210 g up to 6000 g.
