

Also work with Accessory - N3C-R (Ring Light Cap)

The 5MP Edge AM7915MZTL, a long-working-distance model, has perfectly merged with AMR and EDOF/EDR which makes it ideal for most professional needs, yet its stunningly image quality and illumination flexibility suites well for various imaging task.

Overview

Adjustable polarizer

The built-in adjustable polarizer allows to remove freely the unwanted reflection or glare from the object surface for a better contrast.

High optical resolution

The superior optics adopted in the Edge series reveals the finest details, answering the needs of the most demanding microscopy applications.

5.0 Megapixels

Thanks to the low loss MJPEG compression, the advanced CMOS image sensor allows to transmit fluid and crisp image with resolution up to 2592x1944.

Extended Depth of Field (EDOF)

Viewing rough surface with height range out of depth of focus, the EDOF can take several images at different focus and stack them automatically within a click.

Extended Dynamic Range (EDR)

Observing high contrast or reflective surface, the EDR can help to reveal the details of dark or bright areas by stacking images taken at different exposure levels.

Long-Working-Distance (LWD) optics

The LWD optics yields more working space between the object and the microscope, making it ideal for applications such as repairing or assembly.

Scroll Lock

The scroll lock ensures the focus knob staying at the desired focus or magnification position without worry of unintentional movement.

Robust housing

The metal housing made of aluminum alloy offers compelling advantages of protection and endurance.

Interchangeable caps

The interchangeable caps provide adaptability to numerous applications with alternative lighting or object interface, such as but not limited to diffused-light, ring-light, and coaxial-light etc.

Flexible LED Control (FLC)

Tasking with software, the FLC maximizes illumination flexibility by offering independent on/off control to the four LED quadrants in addition to the 6-levels intensity adjustment capability.

Automatic Magnification Reading (AMR)

Without the hassle to stop and check the magnification for doing a measurement, the AMR detects the magnification rate automatically through the software, making the measurement be a more efficient, accurate, and pleasant process.

Interchangeable front caps

N3C-C / Close Cap

This cap protects the lens and LED lights from contamination of dust, debris, or moisture.

N3C-E / Extended Open Cap

Dino-Lite Edge (stand type) will focus at approximately 200x when the cap touches surface.

N3C-O / Open Cap

This is the standard cap for normal usage.

N3C-D / Diffuser Cap

This cap diffuses the LED light.

N3C-D2 / Opal Diffuser Cap
This cap diffuses the LED light.

N3C-L / Long Cap
This cap is useful to adjust the working focus of Dino-Lite Edge at lower magnification.

N3C-S / Sidelight Cap
This cap creates images with more depth and texture.

Specification

| | |
|----------------------------|---|
| Model | AM7915MZTL Dino-Lite Edge |
| Interface | USB 2.0 |
| Product Resolution | 5M pixels (2592x1944) |
| Magnification | 10x~140x |
| Frame Rate | 10fps in 5MP/3MP/2MP, MJPEG 25fps in 1.3MP, MJPEG 30fps in VGA, MJPEG |
| Lighting | 8 white LEDs |
| Polarizer | Yes |
| Microtouch | Yes |
| Operating System Supported | Windows 10, 8, 7, Vista, XP Mac OS 10.9 or later (EDOF/EDR are NOT controllable on Mac OS) |

System Requirements

- Intel Core2 Duo @ 2.20 GHz/AMD Athlon X2 Dual Core BE-2400 (2.3GHz)
- 20GB available HD space
- 2GB available RAM or more
- 512MB video card or more
- CD-ROM drive for installation
- USB 2.0

| | |
|----------------------|------------------------|
| Calibration Function | Yes |
| Measurement Function | Yes |
| Unit Dimension | 10.5cm (H) x 3.2cm (D) |
| Unit Weight | 138g |
