## ► Summary

The tester is to evaluate the fatigue of the stimulus by giving fatigue to the product or specimen that is complied with the reliability test requirements. Designed and manufactured to meet the requirements of the customer. It is an indispensable device for evaluating the durability and testing the limits of the components of the automobile. This design is initiated by the customer's request.

## ► Features

KTE-104AC / Air Damper Endurance Tester / Automobile

- Measurement of dropping time by weight
- PC Control
- Automatic marking function
- Full inspection function (Quantity counter available)

## ■ DETAILED INFORMATION

### ► Specification

Power : AC 220V, 50 / 60 Hz, 1 Phase

Control Method : PC control

### ► Application

Air damper and wire damper for automobile
