

XP-1A SF₆ Gas Leakage Detector

Product Description

XP-1A SF₆ gas leak detector is used for detecting SF₆ gas leakage.

Features

- Handheld, easy to operate.
- Ergonomic design, rubber cushion grip on handle.
- One touch reset and keypad controls.
- Visual leak indicator.
- Variable frequency audible alarm, mute button.
- Flexible stainless steel probe.
- All halogenated refrigerants detection.
- Battery test, low battery indicator.
- Molded carry case.

Specifications

- Power supply: 3VDC, 2/C alkaline batteries.
- Max. Sensitivity: R12, R22, R134a are approved(14g/yr)
- Limiting sensitivity: Halogen refrigerant, less than 3g/yr
- Sensing tip life: about 20hours.
- Leak indicator: 3 color, 6 segments, 18levels.
- Battery test: true voltage indication.
- Battery life: about 30hours.
- Reset time: 1s
- Pre-heat time: about 2s.
- Operating temperature: 0-50°C
- Probe length: about 355mm.
- Dimension: about 229*57*57mm.
- Weight: about 560g.

Accessories

- Carry case 1pc
- Battery 2pcs
- Probe 1pc
- User's Guide 1pc
- Factory test report 1pc
