Features

- Reliable and robust strapping head
- Auto strap feeding
- Electronic tension control
- Auto strap ejector
- Belt transmission
- Hinged top plates
- Conveyor speed: 30 meters/minute
- Multiple strap function for single, double, continuous strapping, or transit mode
- Up and down stream interlock with complete plug connection
- Easy bundle flow direction change
- Strap end ejector

Options

- Siemens PLC
- Variable conveyor speed: from 18 meters/minute to 42 meters/minute
- Safety guards
- Foot pedal switch

Technical Data

Strap Width	8 mm, 9 mm, or 12 mm
Tension Range	7 - 70 kg (requires safety devices to meet CE regulations)
Capacity	Up to 18 packages/minute (60Hz) (Cycle speed up to 29 cycles/minute)
Table Height	825 mm
Weight	325 kg
Electrical Requirements	220V, 380V, 400V, 415V 50/60Hz 3PH
