Meet Clip T Series

Clip T Series is one of the most compact and cheapest thermal imager attachment for sights on the market, which is mainly used with day riflescope and low cost, low power consumption and miniaturization.

Clip on thermal scopes are truly versatile thermal imaging scopes that give you increased options and functionality. Whether you are looking to use it as a dedicated thermal scope or clipped on in front of your day optics for increased thermal imaging zoom capability, these scopes can easily accommodate your needs. Our clip on's fit any Picatinny rail mount in seconds, and there's no need to re-zero. So if you're in the hunting realm, you can switch to your favorite aiming method with ease. These scopes need absolutely no light to function, so you can literally turn any day scope into a night vision scope with a simple throw lever mount. Now you can see your targets any time of day or night making it a truly robust aiming system.

• **Product characteristics**

The most compact size Ultra light weight

Low power consumption

IP67 waterproof

High resolution OLED display

12 μm thermal imaging sensor

Your Wise Choose With Clip T Series

Model	CTP13
Detector Resolution	256x192
Pixel Size, μm	12
NETD, mk	≤ 40
Frame Rate, Hz	25
Objective Lens, mm	13
Filed of View	$13.5^{\circ} \times 10.1^{\circ}$
Magnification	$\times 1$
Detection Range, m (Target size: $1.7\text{m} \times 0.5\text{m}$, $P(n)=99\%$)	675
Display	1024*768 OLED
Battery	CR123(3.7V) $\times 1$
Power Consumption, mW	700
Max. Battery Life($t=24^{\circ}\text{C}$), h	3.5
Degree of protection, IP code	IP67
Weight (without battery), g	$\leq 130\text{g}$
Dimension, mm	77*52*46
Interface	Type-C
Adapter Ring Mount	M30*1.0
